EDUCATION  FOUNDATION

---

## Who we are.

Established in 2007, Audubon Education Foundation is a wholly non-profit organization which depends on both acquisition of grants and generous donations from individuals and organizations alike.

## What we do.

Encourage academic excellence in the Audubon School District by providing funding not available through local, state or federal sources.

Provide opportunities for teachers and staff to develop and implement innovative projects through grants.

Invest in programs that have a positive impact on student success.

Develop a network of former Audubon students, local residents and businesses to encourage continued interest in and support of public education.

Seek and cultivate both private and corporate funding sources.

Foster a sense of community and partnership for all members and stakeholders of the Audubon Public School System.

## What can you do?

If you would like to find out how you can help make an Audubon Education the best it can be, by making a donation, or by volunteering your time and/or services, here are three ways to get started:

- Call 856-547-7695
- Visit [audubonedfoundation.org](http://audubonedfoundation.org)
- email [aef@audubonschools.org](mailto:aef@audubonschools.org)
